## A Message From Our Partners

We hope you and your loved ones are safe and healthy during this challenging time.

We greatly value our face-to-face interactions we share with each other, which define our mission to communicate honestly, respectfully and compassionately. In accordance with the [Connecticut State Executive Order](#), our office is operating on a telecommuting basis.

**Our Team:** Our recruiters and staff remain available to meet with candidates and clients, although we are now doing so by video conference, phone or email. Position openings will continue to be posted on our website, via email and social media.

**Staffing:** We are currently working with multi-state companies to help specialized workers from all industries find employment. To help you build your team, we have successfully onboarded candidates with pre-recorded or live candidate interviews via our video platform. We are here to help with guidance on equipping candidates and employees with remote capabilities.

The staff and recruiters at Excel Partners will continue to communicate as the situation evolves so we can best support you. Thank you for choosing Excel Partners.

Stay well.
